## ARTISTS' RENDERINGS

**ELEGANT** The unique, leather-wrapped, heated steering wheel on Limited is a study in luxury, featuring intricate contrast stitching and precisely inlaid wood appliqué.

**REFINED** Open-pore wood, knobs and dials crafted with detailed chrome surrounds and buttery soft black leather trim all come together to create a lush variety of textures within the cabin.

# LIMITED

## LUXURY DEFINED AND REDEFINED

**JEEP® GRAND CHEROKEE L LIMITED** ushers you into a world of luxury and exceptional style, reflecting its craftsmanship from every angle. Standard LED fog lamps help you see and be seen in inclement weather, and a standard Remote Start System helps ready the cabin for comfort upon entry. Limited extends an invitation to experience true Grand Cherokee sophistication.

The artistry designed into  
**Grand Cherokee Limited**  
stands out, from every angle.

**HEATED SEATS**

Front- and second-row passengers enjoy the comfort of heated seating. Drivers are pampered with a Techno-leather-wrapped steering wheel.

**QUALITY AUDIO** The Alpine®

Premium Audio System with Active Noise Cancellation delivers top-quality sound via a 506-watt amplifier, a subwoofer and nine carefully placed speakers.

**CARGO TO GO**

A carpeted cargo area includes a storage tray and four tie-down loops. Fold down the second and third rows to enjoy up to 2,395 L of cargo volume (with the three-row model).

**POWER, HEATED, MEMORY MIRRORS** These multifunctioning side mirrors help keep your rear view in clear sight. Memory functions automatically perform readjustments for two different drivers.

**FINGER-TOUCH STEERING-WHEEL CONTROLS** Keep your eyes on the road while your fingertips can help you access pertinent information and adjustments on your Multi-View Display, HVAC, and Uconnect® system.

**ELECTRONIC GEAR SHIFTER DIAL** This ergonomically pleasing dial is easy to grip, smoothly turning and landing on each PRND gear while staying in place until its next turn.

**REMOTE START SYSTEM** Climb into a pleasantly preheated or precooled vehicle — featuring a 91-m (300-ft) range.

**THREE-ZONE AUTOMATIC TEMPERATURE CONTROL** Passengers sitting in the three climate-control zones of the front and second rows can enjoy separate air temperature settings.

**DUAL-PANE PANORAMIC SUNROOF** Sightseers will enjoy so much more to see with this large sunroof. The world opens up, thanks to its power sunshade opening in front and its fixed glass ceiling in the rear.

**REMOTE PROXIMITY ENTRY** Keep the key fob in your pocket, open the door, get seated with your foot on the brake, press the Start button and simply shift into Drive.

**IMPRESSIVE CARGO VOLUME** Grand Cherokee L, with its three rows of seating, offers a wide range of configuration options that are easily deployed. Lower the third row to access 1,328 L (46.9 cu ft) of volume, and increase it to 2,396 L (84.6 cu ft) when the second row is lowered as well.

POWER THAT  
**MOVES YOU**

V6 TOWING  
**6,200-LB (2,812-KG) MAX**  
**3.6L V6 ENGINE (standard)**

Grand Cherokee L is powered to bring along the best of your toys. This strong, available V6 engine combines strength and efficiency.

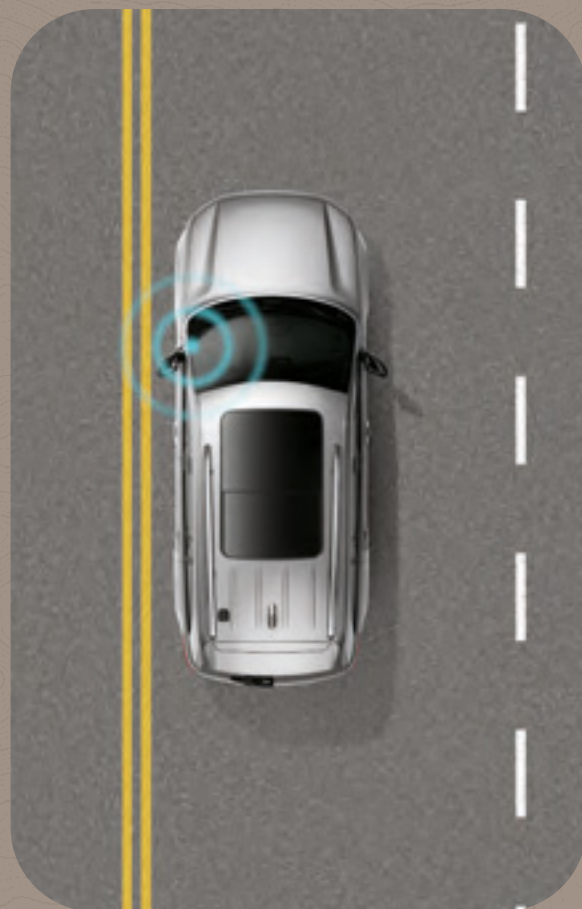

The 3.6L Pentastar™ V6 engine combines strength with an efficient performance, achieving 290 horsepower, paired to an 8-speed automatic transmission.

# ACTIVELY

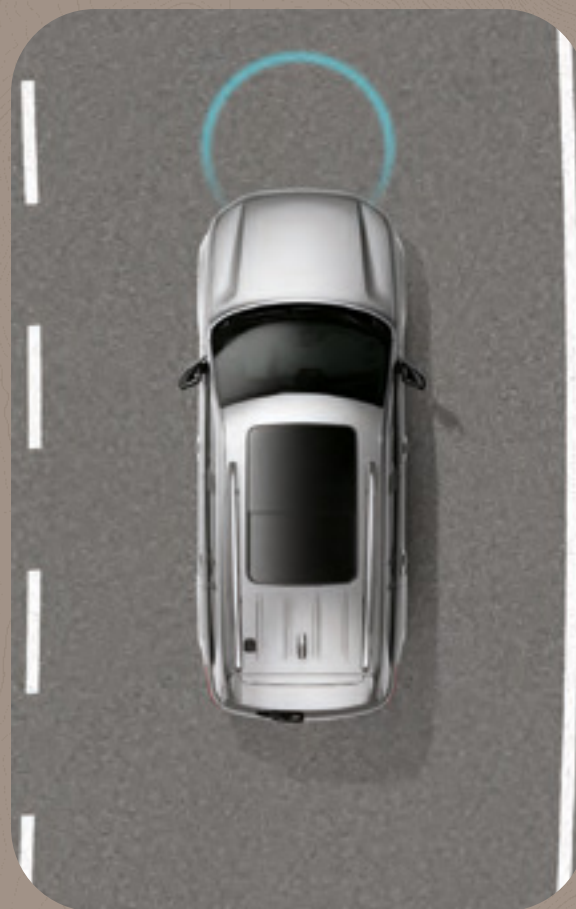

O N G U A R D

With more standard and available safety and security features than ever before, passengers in all rows benefit from next-generation technology and engineering. Enjoy travelling all roads knowing there are systems in place that are actively working to help keep you secure.

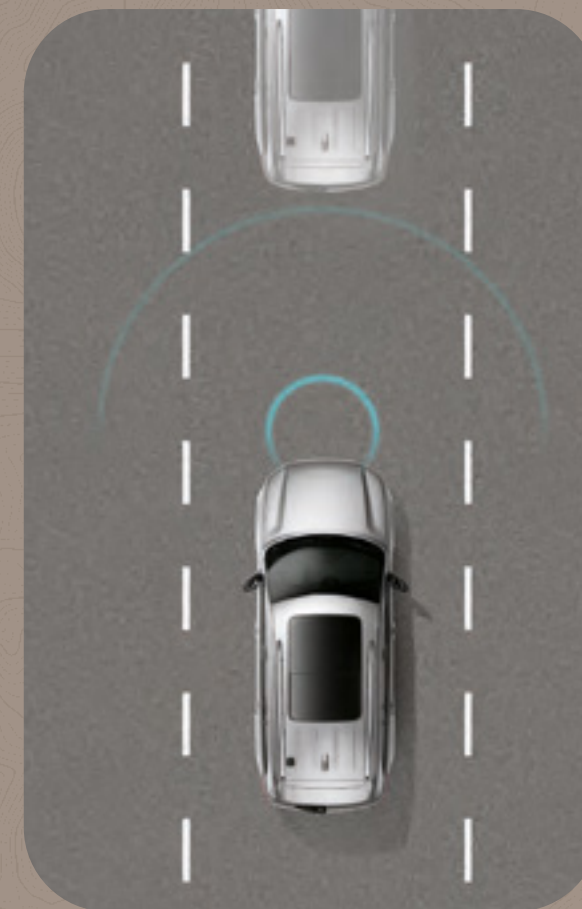

## ACTIVE LANE MANAGEMENT SYSTEM<sup>18</sup>

Provides a visual and audible warning should the system detect the vehicle is drifting outside of lane boundaries or if the driver's hands are off the wheel.

## ACTIVE DRIVING ASSIST SYSTEM<sup>18</sup>

Helps you simultaneously keep your vehicle centred in its lane, on straightaways and curved roads alike, and maintain a safe distance from others while cruising at a desired speed on divided highways.

## ADAPTIVE CRUISE CONTROL WITH STOP AND GO<sup>18</sup>

Take the guesswork out of keeping a safe following distance from the car ahead while cruising on the highway. The system automatically adjusts cruising speed to maintain a preset distance between you and the vehicle ahead and can bring the vehicle to a complete stop, without driver intervention, to help avoid a collision.
